

# Portable Electric Grease Pump with handy Gun

**KSP-821GH**

**KWK**

## SPECIFICATION

**Output : 113/136cc/min(50/60Hz)**  
**Ratio : 1/11**  
**Motor : 0.2kW AC100V/200V  $\phi$ 1**  
**Rated Current : 4.1A(50Hz), 3.3A(60Hz)**  
**2.1A(50Hz), 1.7A(60Hz)**  
**Discharge Pressure : Max 15.0MPa**  
**Pump Type : Double Plunger**  
**Usable Grease : NLGI No.0~1**  
**Container: 16kg Pail Can(Standard)**  
**18kg Pail Can(Optional)**  
**Relief Pressure : 15.0MPa**  
**Weight : 17.5kg**

- A portable grease pump with a handy gun.
- Simply attach it to the pail and it is ready to use!

**Very easy to Install**

**Reduction of Running Cost**

**Extension of Machine Life**

**High cost-effectiveness  
with  
Low installation cost**

## ■ Special Feature

- \* Since agitator blade is adopted instead of a follower plate, it is much easier to replace the pail can.
- \* Double plunger pump prevents air biting.
- \* Trolleys make it easier to move around.

### Air Relief Valve

Releases air  
due to air bites

Easy-to-operate  
grease gun

HIGH PRESSURE  
HOSE 1/4×5m

### SIGHT HOLES

The grease level can be  
checked by illuminating  
one side with a light.

### POWER SWITCH

### AGITATOR BLADE

The blade rotates to flatten  
the grease and increase  
suction efficiency.

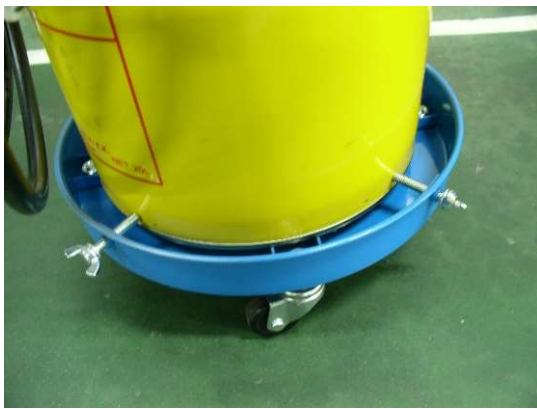

● Agitator blade levels the surface of grease.

● You can use up the grease to the bottom.

● Easy to move with trolley  
\*Option

● Pressure Gauge  
\*Option

● Spray Nozzle  
\*Option

## ■ Other Options for Single Lubrication

- Cordless Electric Grease Gun / KBP-1-D2
- Battery-driven type
- Easy greasing with powerful pressure (21MPa)
- Cartridge type or Filling type
- Nozzle tip with hydro coupling
- Shoulder belt is included as standard

- Jumpet / KJP-1
- Battery-driven single lubricator
- No plumbing or wiring required
- Operation interval and timing can be set
- Cartridge type prevents foreign substances
